UNIVERSITY CAREER FAIR
EMPLOYER GUIDE

OCTOBER 7, 2010
Case Western Reserve University
Career Center

Partners Program:
Accenture / Bridgestone Americas Center for Research and Technology / Explorys / General Electric / Network Technologies Inc / Nordson Corporation / Philips / The Timken Company
Career Center

Mission
The Career Center offers individualized assistance, programs, and technologically advanced resources to educate students in the development of lifelong career management skills, the attainment of work experience, and the integration of academic and career plans.

Services

Drop-In/Consulting Hours
Ask quick questions about your job search, resume or cover letter, or graduate and professional school applications. See website for times.

Career Counseling
Request an appointment to discuss choice of major or career, assessment results, or get advice on job search strategies.

Self-Assessment Activities
We offer the Myers-Briggs Type Indicator and the Strong Interest Inventory. These activities can provide direction as you navigate your choice of major or career interest area.

Credential Files: Introduction to Interfolio
Interfolio is a web-based credential and reference file management service that maintains files for students and alumni. This service replaces the paper-based files.

Mock Interviews
Strengthen your interview skills with a mock interview. Student must provide a critiqued resume at the time they request an appointment.

Alumni Career Network
The Alumni Career Network links students with alumni volunteers who provide information, advice and guidance in specific fields and industries.

Practicum Program
The Practicum Program provides an opportunity for undergraduate students from the College of Arts & Sciences and Weatherhead School of Management to earn transcript notation for a full-semester workplace experience during the academic year.

CWRUlink
Our online career management system has job and internship postings, on-campus interviewing positions, resume books, and info sessions.

Staff

Tom Matthews, Director
thomas.matthews@case.edu

Robin Gendek, Associate Director
robin.gendek@case.edu

Kimberly Paik, Assistant Director
kimberly.paik@case.edu

Laura Papcum, Assistant Director
laura.papcum@case.edu

Jennifer Price Davis, Assistant Director
jennifer.pricedavis@case.edu

Drew Poppleton, Assistant Director
drew.poppleton@case.edu

Genine Apidone, Career Development Manager
genine.apidone@case.edu

Maggie Crosswhite, Marketing Coordinator
mary.crosswhite@case.edu

Lorraine Howard, Office Manager
lorraine.howard@case.edu

Rhonda Peoples, Career Information Assistant
rhonda.peoples@case.edu

Uma Ricco, Recruitment Coordinator
uma.ricco@case.edu

Office Hours
Sears Library Building – Room 206
Phone: 216-368-4446
Fax: 216-368-4759

Monday – Friday, 8:30 am – 5:00 pm

How to Work a Career Fair

The relaxed and friendly "open house" format of a career fair makes it easy to explore career options, develop a network of career contacts, identify job openings, and even land an interview in a short amount of time. Here are some quick tips designed to maximize your success.

Preventing for a Career Fair

Clarify your goals. What do you hope to get out of the Career Fair: Information about employers? A chance to meet a representative from a particular company? An overview of the job market? Make sure your expectations are consistent with the purpose of the event.

Research the companies in advance. Review the list of attending employers. Identify those that are looking for candidates with your qualifications. Read any information available about the company. Write down a few questions about the organization that you can ask the representative. On the day of the career fair, pick up additional material, find a quiet corner, and study it in more detail.

Prepare a one-minute introduction about yourself. In addition to stating your name, school, major, and the type of position you seek, you should express why you are interested in the organization or field. Briefly relate your background to what you know about the employer's needs. Practice your introduction until you feel comfortable with it. This will make you feel and appear more confident, organized, and focused.

Bring your resume. Make sure you have enough copies of your resume—between 20 and 30 is usually sufficient. Be sure to include phone number and e-mail address on resume.

Prioritize your time. Take a few minutes before you enter the room to review the list of attending companies. Highlight and prioritize those you are most interested in so you can organize your time efficiently. Instead of standing in line to talk to a particular employer, circulate and come back later.

First impressions are lasting impressions. Dress and act professionally. As always, good grooming is essential. Avoid anything distracting, like too much jewelry, heavy makeup, heavy perfume or a messy hairstyle. For business occasions, the look should be tailored. Walk confidently with good posture. Make direct eye contact and shake hands firmly.

Market yourself. Consider the career fair as "round one" of a job interview. Show interest and enthusiasm by smiling and speaking clearly. Have a positive greeting: "Hello, I'm Chris Smith. I'm a management major and will graduate in May. I'm glad to see your company here and would like to ask you about......"

Ask appropriate questions. Increase your knowledge of industry trends, job options, career paths, training programs and other information that can help you make a wise career decision. Answer questions clearly and concisely. There may be many people in line behind you, so you don't want to take up too much time. Concise answers also show that you are well prepared. Save your questions on salary and fringe benefits until you are further along in the interview process. Ask if they are collecting resumes and ask for a business card because you will want to follow up on interesting leads. Thank them for their time. Do not just collect give-a-ways—take information, too.

Broaden your focus. You may miss out on possible opportunities if you pass up an employer because of preconceived ideas. Many technical firms offer non-technical positions, and vice-versa. You'll be surprised by how many employers are looking for candidates with a solid liberal arts background, and internship or co-op experience.

Follow Up. Since you have business cards and company information, you can write individualized follow-up letters (include another copy of your resume) to appropriate employers, expressing your continuing interest. If you can, mention something you discussed in your conversation at the career fair.

* OCI Friday is On-campus Interviewing (OCI) that takes place the day after the Career Fair, Friday, October 8. To be considered for one of these interviews, stop by the company’s table at the University Career Fair to submit your resume and indicate your interest in interviewing. If you are selected for an interview, an employer rep. will contact you directly to schedule a time. Interviews will take place in the Career Center, Sears Library Building, Room 206.

** OCI is On-campus Interviewing that takes place in the Career Center between October 11 and November 19. Most of these OCI schedules are Pre-select, meaning that the process is managed through CWRUlink - you submit your resume/application materials online, employers select candidates there, and selected candidates sign-up for timeslots through CWRUlink. Exceptions are noted with ***

*** These employers are conducting Room Reservation Only OCI, which means that you won’t see an On-campus Interviewing position listed in CWRUlink (though you may see a non-OCI job or internship posting). You apply by submitting your resume at the University Career Fair, via the company’s website, or via a non-OCI job posting in CWRUlink. If you are selected for an interview, the employer will contact you directly to schedule a time. Interviews will take place in the Career Center.

Alcoa is the world’s leading producer of primary aluminum, fabricated aluminum and alumina. In addition to inventing the modern-day aluminum industry, Alcoa innovation has been behind major milestones in the aerospace, automotive, packaging, building and construction, commercial transportation, consumer electronics and industrial markets over the past 120 years. Among the solutions Alcoa markets are flat-rolled products, hard alloy extrusions, and forgings, as well as Alcoa® wheels, fastening systems, precision and investment castings, and building systems in addition to its expertise in other light metals such as titanium and nickel-based super alloys. Alcoa has been a member of the Dow Jones Sustainability Index for eight consecutive years and approximately 75 percent of all of the aluminum ever produced since 1888 is still in active use today. Alcoa employs approximately 59,000 people in 31 countries across the world.

Founded in 1884 as the Reliance Gauge Column Company, Clark-Reliance has a long and rich history that abounds with innovations. A multi-million dollar, privately-held company, Clark-Reliance has achieved a series of milestones and mergers over the last 100 years including their acquisition by Cleveland Industrialist, Harry E. Figgie, Jr. in 1962 and the establishment of The Clark-Reliance Corporation on February 19, 1963. Key acquisitions over the last few decades have solidified Clark-Reliance as an industry leader in the design, manufacture and distribution of level indication & control and filtration & separation products and services. Serving major industrial markets that include the petrochemical, refining and power-generating industries, Clark-Reliance is a multi-divisional corporation that designs and produces award winning products. Clark-Reliance was recently named on the Plain Dealer's Top Workplaces 2010.

Cleveland Clinic was founded in 1921 by four doctors whose vision was to provide excellent patient care based on the principles of cooperation, compassion and innovation. Today, Cleveland Clinic has locations throughout Northeast Ohio and beyond, including Canada, Florida, and Abu Dhabi. With more than 1,000 beds and 3.3 million patient visits each year*, it is one of the largest and most respected hospitals in the country. Annually, people from 80 countries choose to travel to Cleveland Clinic for their care. Cleveland Clinic consistently has been named as one of the nation's best hospitals, and for 15 years, our heart and heart surgery program has been ranked no. 1 in heart care in the country, according to the U.S.News & World Report "Best Hospitals" survey.

Phone: 440-353-6204; Fax: 440-353-6004

Beckett, a family-owned company founded in 1937, is a leading U.S. manufacturer of HVAC controls and equipment, with products in approximately 40 million American homes. In 2009 Beckett entered the energy storage and conversion products markets and began the development of products for utility customers such as First Energy, Duke, and American Electric Power.

To meet the demands of the core business and expansion into energy storage Beckett is looking for energetic, get-the job done electronic hardware, embedded software and power electronic engineers.
Through its long-time vision to build a family of companies, Beckett Gas, Inc. and Beckett Air, Inc. were added to Lorain County—Beckett now providing employment to over 500 workers.

Beckett is built on three core values: integrity, excellence and profound respect for the individual. Management nurtures relationships with employees by creating a work environment that fosters growth and well-being.

ViaSat produces innovative satellite and other digital communication products that enable fast, secure, and efficient communications to any location. We bring today’s new communication applications to people out of reach of terrestrial networks, in both the commercial and government sectors, with a variety of networking products:

- Satellite networks for fixed-site and mobile communications
- Satellite antenna systems
- Wireless datalinks and terminals for combat situational awareness
- Information security for military networking
- Mobile IP networking for soldiers
- Communication microprocessor chipsets
- Application and communication acceleration
- Satellite network system design
- Communication simulation and training systems
- Consumer satellite broadband services

Yelp is an online urban city guide that helps people find cool places to eat, shop, drink, relax and play, based on the informed opinions of a vibrant and active community of locals in the know. Yelp is the fun and easy way to find, review and talk about what’s great — and not so great — in your world. Yelp allows consumers to share the experiences they’ve had with local businesses and lets business owners share information about their business with their customers. Simply put, it's word of mouth-- amplified.
