Career Center

Mission
The Career Center offers individualized assistance, programs, and technologically advanced resources to educate students in the development of lifelong career management skills, the attainment of work experience, and the integration of academic and career plans.

Services

Drop-In/Consulting Hours
Ask quick questions about your job search, resume or cover letter, or graduate and professional school applications. See website for times.

Career Counseling
Request an appointment to discuss choice of major or career, assessment results, or get advice on job search strategies.

Self-Assessment Activities
We offer the Myers-Briggs Type Indicator and the Strong Interest Inventory. These activities can provide direction as you navigate your choice of major or career interest area.

Credential Files: Introduction to Interfolio
Interfolio is a web-based credential and reference file management service that maintains files for students and alumni. This service replaces the paper-based files.

Mock Interviews
Strengthen your interview skills with a mock interview. Student must provide a critiqued resume at the time they request an appointment.

Alumni Career Network
The Alumni Career Network links students with alumni volunteers who provide information, advice and guidance in specific fields and industries.

Practicum Program
The Practicum Program provides an opportunity for undergraduate students from the College of Arts & Sciences and Weatherhead School of Management to earn transcript notation for a full-semester workplace experience during the academic year.

CWRUlink
Our online career management system has job and internship postings, on-campus interviewing positions, resume books, and info sessions.

Staff

Tom Matthews, PhD, Director
thomas.matthews@case.edu

Robin Gendek, Associate Director

How to Work a Career Fair

The relaxed and friendly "open house" format of a career fair makes it easy to explore career options, develop a network of career contacts, identify job openings, and even land an interview in a short amount of time. Here are some quick tips designed to maximize your success.

Preparing for a Career Fair

Clarify your goals. What do you hope to get out of the Career Fair: Information about employers? A chance to meet a representative from a particular company? An overview of the job market? Make sure your expectations are consistent with the purpose of the event.

Research the companies in advance. Review the list of attending employers. Identify those that are looking for candidates with your qualifications. Read any information available about the company. Write down a few questions about the organization that you can ask the representative. On the day of the career fair, pick up additional material, find a quiet corner, and study it in more detail.

Prepare a one-minute introduction about yourself. In addition to stating your name, school, major, and the type of position you seek, you should express why you are interested in the organization or field. Briefly relate your background to what you know about the employer's needs. Practice your introduction until you feel comfortable with it. This will make you feel and appear more confident, organized, and focused.

Bring your resume. Make sure you have enough copies of your resume—between 20 and 30 is usually sufficient. Be sure to include phone number and e-mail address on resume.

Prioritize your time. Take a few minutes before you enter the room to review the list of attending companies. Highlight and prioritize those you are most interested in so you can organize your time efficiently. Instead of standing in line to talk to a particular employer, circulate and come back later.

First impressions are lasting impressions. Dress and act professionally. As always, good grooming is essential. Avoid anything distracting, like too much jewelry, heavy makeup, heavy perfume or a messy hairstyle. For business occasions, the look should be tailored. Walk confidently with good posture. Make direct eye contact and shake hands firmly.

Market yourself. Consider the career fair as "round one" of a job interview. Show interest and enthusiasm by smiling and speaking clearly. Have a positive greeting: "Hello, I'm Chris Smith. I'm a management major and will graduate in May. I'm glad to see your company here and would like to ask you about......"

Ask appropriate questions. Increase your knowledge of industry trends, job options, career paths, training programs and other information that can help you make a wise career decision. Answer questions clearly and concisely. There may be many people in line behind you, so you don't want to take up too much time. Concise answers also show that you are well prepared. Save your questions on salary and fringe benefits until you are further along in the interview process. Ask if they are collecting resumes and ask for a business card because you will want to follow up on interesting leads. Thank them for their time. Do not just collect give-a-ways— take information, too.

Broaden your focus. You may miss out on possible opportunities if you pass up an employer because of preconceived ideas. Many technical firms offer non-technical positions, and vice-versa. You'll be surprised by how many employers are looking for candidates with a solid liberal arts background, and internship or co-op experience.

Follow Up. Since you have business cards and company information, you can write individualized follow-up letters (include another copy of your resume) to appropriate employers, expressing your continuing interest. If you can, mention something you discussed in your conversation at the career fair.

</table>

* OCI Friday is On-campus Interviewing (OCI) that takes place the day after the Career Fair, Friday, October 5. To be considered for one of these interviews, stop by the company’s table at the University Career Fair to submit your resume and indicate your interest in interviewing. If you are selected for an interview, an employer rep. will contact you directly to schedule a time. Interviews will take place in the Career Center, Sears Library Building, Room 206 or in Nord 310 (please make sure to confirm the location with your company representative).

** OCI is On-campus Interviewing that takes place in the Career Center between October 8 and November 16. Most of these OCI schedules are Pre-select, meaning that the process is managed through CWRUlink - you submit your resume/application materials online, employers select candidates there, and selected candidates sign-up for timeslots through CWRUlink. Exceptions are noted with ***

*** These employers are conducting Room Reservation Only OCI, which means that you won’t see an On-campus Interviewing position listed in CWRUlink (though you may see a non-OCI job or internship posting). You apply by submitting your resume at the University Career Fair, via the company’s website, or via a non-OCI job posting in CWRUlink. If you are selected for an interview, the employer will contact you directly to schedule a time. Interviews will take place in the Career Center.
1 EDI Source, Inc. - http://www.1edisource.com
31875 Solon Road, Suite 2, Solon, OH 44139
Brittany Rohner, Human Resources Manager

ANSYS Inc. - http://www.ansys.com/
275 Technology Drive, Canonsburg, PA  15317
Hope Vaccaro, Manager, Talent Acquisition
hope.vaccaro@ansys.com
Phone: 724-514-3558   Fax: 724-514-3116

ANSYS develops, markets and supports engineering simulation software used to foresee how product designs will behave and how manufacturing processes will operate in real-world environments. We continually advance simulation solutions by, first, developing or acquiring the very best technology; then integrating it into a unified and customizable simulation platform that allows engineers to efficiently perform complex simulations involving the interaction of multiple physics; and, finally, providing system services to manage simulation processes and data — all so engineers and product developers can spend more time designing and improving products and less time using software and searching for data.

Engineering simulation is our sole focus. For more than 40 years, we have consistently advanced this technology to meet evolving customer needs.

William Hays, Engineering Manager
hr@comtime.com
**Phone:** 330-644-3059  **Fax:** 330-644-8110

Commercial Timesharing Inc. (CTI) provides innovative software and electrical engineering services worldwide. Founded in 1978, CTI has grown to 20+ engineers; part of a total enterprise of more than 100. CTI is a resource for large industries. We collaborate with our clients to define needs, and then we design, develop, and deploy projects to meet those needs. We also provide and support a specific line of tire testing and operation management products for the automotive, tire and rubber industries. Our size allows everyone to be a contributor, not just another small cog in a big wheel. We have a strong team methodology, and in such a demanding range of technical environment, is a great experience. Our mission critical work is challenging, and we are looking for people who want challenges.

Phone: 610-282-6470  Fax: 610-282-6266

Lutron Electronics, headquartered in Pennsylvania, designs and manufactures energy-saving light controls and automated window treatments for both residential and commercial applications. Our products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer. Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately $1 billion in utility costs per year.

Phone: 216-391-7042  Fax: 216-391-7004

The mission of MAGNET, the Manufacturing Advocacy & Growth Network, is to support, educate and
champion manufacturing in Ohio with the goal of transforming the region’s economy into a powerful, global
player. Founded in 1984, the Manufacturing Advocacy & Growth Network (MAGNET) is a nonprofit
organization dedicated to helping manufacturers compete and grow under the leadership of a board of
directors who reflect the breadth of manufacturing in the region. MAGNET provides consulting services
aimed at helping companies achieve bottom-line efficiencies through increased productivity and process
improvement programs while improving top-line sales through a variety of new product development and
growth strategies

The Master of Engineering and Management Program - http://www.mem.case.edu
10900 Euclid Avenue, MEM Program, 302 Nord Hall, Cleveland, OH 44106-7233

Ramona David, MEM Admissions and Program Manager
ramona.david@case.edu
Phone: 216-368-0596  Fax: 216-368-0144

The MEM degree is offered through an innovative collaboration between the Case School of Engineering and
the Weatherhead School of Management. The one-year, 14-course program of study builds on the technical
and analytical skills you gained through your undergraduate engineering degree and provides a real-world
framework for applying them along with master’s level business management tools. Individualized coaching
emphasizes self-assessment and emotional intelligence. Interdisciplinary team projects enhance the people
skills you’ll need as a business leader today. The MEM program positions you to become more productive
faster—and accelerate your career.

For more than 15 years, Ohio Lumex has been a manufacturer of the market-leading RA 915 Atomic Absorption Mercury Spectrometer with Zeeman Background Correction. It is the most sensitive, reliable, and portable mercury measuring device in the world verified and highly recommended by the US EPA. In the last 5 years, we have used this analyzer to create the Sorbent Trap Analyzer System which is an excellent tool for Reference Method 30B RATA and simple to use for Mercury Emissions Compliance Reporting. With our vast experience in mercury, we have become the most widely used manufacturer of the highest quality Custom Made and Spiked Sorbent Traps. In addition, we are a full staff laboratory capable of doing sorbent trap analysis, fly ash, coal, and all industrial testing such as wastewater, boiler water, raw materials, and more.

Teach For America - http://www.teachforamerica.org
1290 Marlowe Avenue, Lakewood, OH 44107

Brianna Savoca, Recruitment Manager
brianna.savoca@teachforamerica.org
Phone: 440-223-9839  Fax: 440-223-9839

The Teach For America Corps experience is a two-year commitment to teach in a low-income school in 46 regions around the country. Our mission is to ensure that every child in our country receives a quality education, and we accomplish this by finding the best and the brightest graduates of any major to become teachers and leaders in their classrooms. (Historically, Case students are a wonderful fit for our program!) Corps members receive extensive training before and during the program, and there are many opportunities to attain a Master’s degree during the corps, and to continue post-grad education following the corps if you do not wish to remain in the classroom (though many do!). Joining the corps means you are making a positive change as part of a social justice movement- fighting educational inequity across our country.
